

Another Chequamegon Birding and Nature Fest has past,  
It wasn't our first and won't be our last.  
Later season, warmer weather adding new life birds,  
We're thrilled to see many old friends and new bird nerds!

Over here, over there, down low and way up high,  
Singing warblers everywhere and thanks to Betsey we now know why.  
With a steely gaze perched, a Peregrine Falcon looks down,  
With Grant's instruction we're voyagers and our craft is sound.

Look anywhere but Long Bridge is your best bet,  
Dunlins, Willets, Killdeer, Plovers and a lone Avocet!  
Over here, over there, down low, oh what the heck,  
Binocs pointed until we get warbler neck!

Five years ago we picked up our first field guide,  
Yes it was life-changing as we now bird far and wide.  
We're Bird Nerds forever, the first CBNF sealed our fate,  
**That event and everyone since has been simply first rate!**

THANK YOU ALL FOR ANOTHER A+++ WEEKEND!!!!!!!!!!

LeAnn & Ron Plinske
